61-86.1, Standards of Performance for Asbestos Projects

Summary: Mr. James T. Timmons (Individual/Entity) is a Department-licensed air monitor employed by F&ME Consultants, Inc. (F&ME). The Individual/Entity performed air monitoring during pre-demolition asbestos abatement at the former Perrin-Thomas Elementary School. On October 7, 2014, October 14, 2014, and October 17, 2014, the Department conducted investigations and subsequent to the demolition of the site on November 15, 2014, the Department requested air monitoring documentation from F&ME. The Individual/Entity has violated South Carolina Standards of Performance for Asbestos Projects as follows: failed to collect air samples for the required length of time; failed to collect daily air samples at each exhaust for the negative pressure equipment; and, failed to perform an adequate visual inspection of the abated area prior to final clearance, and delay clearance air monitoring if there is evidence of contamination.

Action: The Individual/Entity is required to: collect air samples during at least two and one half hours during each four-hour work period during preparation, removal, and clean-up activities at a NESHAP project; perform daily air sampling at each exhaust for the negative pressure differential equipment; perform adequate visual inspections of any abated areas prior to final clearance, and if there is evidence of contamination, delay clearance air monitoring until the contractor performs additional wet cleaning and HEPA vacuuming until no visible residue remains; and pay a civil penalty in the amount of six thousand dollars (**\$6,000.00**).
