

The following update is for school healthcare providers and administrators:

Effective November 17th, 2014 the CDC and Department of Homeland Security added Mali to the list of Ebola-affected nations for which enhanced screening and monitoring measures will be implemented. The CDC now recommends that screening occurs for travel from Mali, as well as countries with ongoing widespread Ebola Virus Disease (EVD) transmission (Guinea, Liberia, or Sierra Leone) when assessing a patient with fever or other illness compatible with EVD. Additional information on the enhanced screening for travelers from Mali is available at: <http://www.cdc.gov/media/releases/2014/p1116-travelers-from-mali.html>

Providers are encouraged to review the list of affected countries by consulting the CDC website daily at <http://www.cdc.gov/vhf/ebola/index.html>.

If you have any questions, please feel free to email us at Ebola@dhec.sc.gov.
