

**SURGEON GENERAL'S  
WARNING:**

Cigarette Smoking  
Causes Lung Cancer.

**SURGEON GENERAL'S  
WARNING:  
Radon Causes Lung Cancer.  
You Should Test Your Home.**

The U.S. Surgeon General recommends that your home be tested for radon. Radon is the second leading cause of lung cancer. Among people who have never smoked, radon is the number one cause of lung cancer. Radon is an invisible radioactive gas that seeps into your home from underground. The only way you can tell if you have dangerous levels of Radon in your home is to test for it. Radon problems can easily be fixed.

For testing information, call:

**Radon Hotline: (800) 768-0362**
