Steve,

Has a letter been sent to the HOA? Maybe a certified one may be in order.

Steve,

Please send the inspection report.

Thanks, Harry

Subject: Walden Place Dam

Harry,

This dam is located on Spears Creek Church Rd between Earth Rd and Walden Place Dr. The last full inspection performed was on April 3, 2015. This dam has quite a few feet of freeboard and it's my understanding that it is operating at a reduced lake level, which would explain the amount of freeboard. This dam is in need of some maintenance and I've been working on getting the owner to submit a plan/timeline for the maintenance that is needed. As soon as I receive a plan I will let you know.

Sincerely,

Steven
