ARBORNATURE  
CLASS 2 SOLID WASTE TRANSFER STATION  
PERMIT No. TRAN-00036

A. SPECIAL CONDITIONS

1. The Permittee shall adhere to the final design plans and engineering report approved on XXX, 2020, unless otherwise approved by the Department.
2. The ArborNature C&D Recycling and Transfer Station shall not exceed the design capacity of two hundred forty (240) tons per day. The total solid waste on-site at any one time shall not exceed 240 tons, as established by the approved cost estimate.
3. The Permittee shall contact the Department no later than one (1) week prior to the completion of constructing the facility to schedule a facility inspection by SC DHEC staff. The Department shall provide written approval to operate prior to acceptance of waste.
4. All unauthorized waste carriers must be refused use of the transfer station. If unauthorized waste is mistakenly accepted, then the SC DHEC Lowcountry Region BEHS Beaufort Office must be contacted immediately at (843) 846-1030.
5. The ArborNature C&D Recycling and Transfer Station is limited to the transfer of Class 2 Solid Waste. Any additional waste stream must have prior approval by the Department.
6. In the event that any historic or cultural resources and/or archaeological materials are found during the course of the work, the applicant must notify the State Historic Preservation Office and the South Carolina Institute of Archaeology and Anthropology. Historic or cultural resources consist of any items, fifty years or older, which were made or used by man. These items include, but are not limited to, stone projectile points (arrowheads), ceramic sherds, bricks, worked wood, bone and stone, metal and glass objects and human skeletal materials.
7. All construction BMPs must be installed, inspected and maintained to hold sediment on-site and to protect any adjacent or downstream critical area, wetlands and waters through the life of the project. Upon completion of construction activities, all disturbed (includes undeveloped) areas, including those impacted for access, must be immediately stabilized.
8. The project must be fully consistent with local zoning and comprehensive plans prior to work being conducted.

## B. GENERAL PERMIT CONDITIONS

1. It is the Permittee's responsibility to adhere to all Federal, State and local zoning, land use and other applicable local ordinances and ensure all other necessary permits and/or approvals have been obtained prior to the receipt of any waste at the referenced facility.
2. The Permittee is responsible for keeping a copy of the ArborNature C&D Recycling and Transfer Station permit and the approved operational plan at the facility at all times. All personnel shall be familiar with this information.
3. There are no monitoring requirements for the ArborNature C&D Recycling and Transfer Station unless the Department confirms environmental and/or health problems associated with the facility, per section G.1.
4. Records of the amount of all solid waste accepted at the facility each day and where all wastes were disposed shall be maintained and kept at the facility and made available to the Department upon request. The Permittee is required to submit an annual report to the Department no later than September 1 that includes the throughput data from July 1- June 30.
5. The ArborNature C&D Recycling and Transfer Station shall notify the Department prior to transfer of ownership or operation of the facility.

## C. CLOSURE PERMIT CONDITIONS

The closure permit conditions are stated in the permit application.
